**DON'T FORGET
CAPTAIN ZIRGO'S**

10 COMMANDMENTS OF COOLING

I ~ Check Coolant Level

Make sure your engine has the correct amount of coolant.

II ~ Check Cooling Hose & Radiator Condition

Check your system for leaks and corrosion that could cause blocking in the hoses.

III ~ Check Fan Blade Condition

Make sure your cooling fan blades are in good shape. In the event there are cracks or chips, replace the fan.

IV ~ Add A Fan Shroud

Adding a fan shroud increases the airflow to the radiator by up to 20%. More air equates to more Cooling.

V ~ Check Cooling Fan Mounting

Make sure your cooling fan is mounted securely to your vehicle. Zirgo's heavy duty fan ties offer an advanced design that result in maximum grip, with little to no slippage. Ideal for simple and pain free installation.

VI ~ Upgrade Your Cooling Fan

Replace your cooling fan with a high performance Zirgo radiator cooling fan. Zirgo's fans offer maximum performance resulting in additional airflow and cooling power.

VII ~ Replace Your Cooling Fan Relay

Upgrade your cooling fan relay to a high output 80 amp relay. An increase in power can boost the performance and efficiency of your current fan.

VIII ~ Replace Your Cooling Fan Wiring

Upgrade your radiator fan wiring to a Zirgo plug-n-play radiator fan harness kit. This harness will replace all wiring needed to drive your cooling fan and can increase fan efficiency. Machine terminated connectors ensures maximum amp delivery.

IX ~ Replace your Thermo Switch

Use a digital, adjustable thermo switch to activate your fan at 160° vs the factory setting. This will ensure your fan turns on before overheating occurs.

X ~ Optimise your Coolant

Use Zirgo UltraCool™ cooling additive to help increase the efficiency of your coolant. UltraCool's unique blend of additives can reduce engine temperature by up to 30 degrees.

HOT ROD GOBI HEATERS

Zirgo's Gobi heater kit can warm up the coldest vehicle with ease. Heating is provided from the hot engine coolant just like an OEM setup, but in a much more compact size making it easy to fit under your dash or seat. Ideal for hot rods, street rods, and customs. Only the Gobi heater case is made from high strength steal guaranteed to handled the harshest environments. Each Gobi heater includes 2 adjustable vents, 1 main vent, high speed blower motor, 3 speed adjustable switch, mounting brackets detailed instructions, and much more.

Ultra small, compact design!

High-Performance Cooling Fans

HIGH FLOW FAN VARIETY

Zirgo's™ high performance cooling fans represent the ultimate in cooling technology, packing maximum performance into a minimum amount of space.

Zirgo™ high torque fan motors feature sealed ball bearings and fully balanced blades, which make for low noise levels and a long life of smooth operation. To ensure maximum performance, all fans offer Flat and S-Blade configurations with reversible blades allowing them to operate as pushers or pullers. Plug-in color-coded harnesses make installation a snap. Zirgo's™ unique revolutionary designed motors offer low amp draw, while providing possible future performance upgrades.

Fan Temp Controllers

Adjustable Digital Temp Switch

Zirgo's™ Digital Temperature Switch/Sensor allows you to monitor and control the most remote areas of your vehicle. Monitor engine compartments, glove boxes, radio/amp enclosures, and much more. Once your programmed temperature is reached, The ZFSDG will send out a signal to a relay to activate your cooling fan.

This is perfect for engines with an optimal operating temperature greater than 180 degrees. The adjustable temperature control allows you to set the activation temperature from 0° F. to 240° F.

Adjustable Temp Switch

Zirgo's Adjustable Temperature Switch allows you to set the specific temperature that you want the cooling power of your Zirgo fan to kick in. The adjustable temperature control allows you to set the activation temperature from 180 degrees to 240 degrees.

ZIRSWA #121188

Fixed Temp Switch

The Zirgo Fixed Temperature Switch will automatically turn on your Zirgo cooling fan at 180° F temperature. To ensure a consistent operating temperature for your vehicle's engine, be sure to install a Zirgo Fixed Temperature Switch/Sensor.

Fan Shrouds & Fan Accessories

Aluminum Fan Shrouds

We all know Zirgo fans are notorious for moving massive amounts of air in a short amount of time. With a Zirgo fan shroud, you can more effectively put that air where you need it. Made of aluminum, these fan shrouds are available in several sizes for your convenience and are easy to install, even for the 'weekend' mechanic. Also easily customized for the more interesting of applications.

Heavy Duty Fan Cable Ties

CoolTies™, Zirgo's new heavy duty radiator cable ties offer SureLoc™ technology resulting in one of the strongest radiator cable ties on the market! Compatible with all cooling fans.

FAN INSTALLATION CHECKLIST

Make sure you've got everything you need to properly cool your ride! Go through this handy checklist we've provided for you so you don't get finished and realize you're going to overheat your vehicle because you forgot a key item.

Fan

Find the fan for your ride either by size or using our application guide on page 17.

Harness & High-Amp Relay

Use either a single or dual fan wiring harness for your fans. See page 5.

Temp. Switch

For a variety of fan controllers- digital, adjustable, or fixed, see page 5.

Cooling Additive

To lower your cooling temperatures by up to 30 degrees, see the UltraCool™ on page 2.

Fan Mounting Kit & Fan Ties

For an ultra-secure fan mounting solution and the prevention of vibration, see the mounting kit and the Zirgo fan ties on page 1.

Advanced Coolant Additive

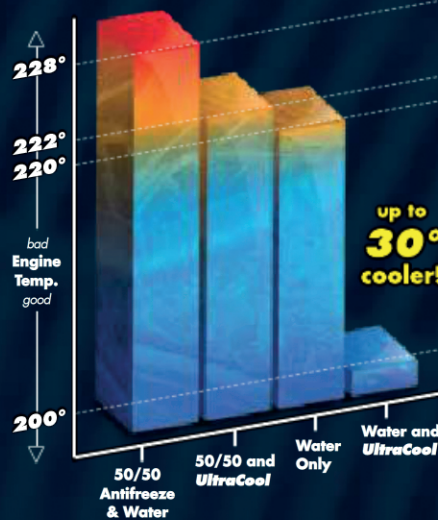

NEW & IMPROVED FORMULA!

ULTRA COOL Advanced Coolant

Additive's specially formulated chemical composition reduces the surface tension of engine coolant, allowing it to extract heat from metal surfaces more efficiently. The lower resulting temperature of your engine prevents pre-detonation, allowing for advanced engine timing and more power.

Not only does **ULTRA COOL** prevent overheating, it lubricates water pump seals.

Prevents PreDetonation • Increases Efficiency & Power • Lubricates Seals

UltraMat™ Heat & Sound Barrier

Ride quiet & cool with UltraMat™! UltraMat™ allows you to reduce road noise while reflecting heat at the same time. The Micro-Ceramic & Infra-Red Reflectant Resin compounds utilize the dynamics of thermal radiance in your favor to reflect infrared energy, keeping your warmer in the winter and cooler in the summer. The AirGap™ Coating deadens sound vibrations for a much more relaxing ride that's easier on the ears.

Engine Hose Kits

2 or 4 ends

UltraHose™ Radiator Hoses

Don't Collapse! The UltraHose™ has a strong corrugated structure that will not collapse or crack like typical rubber radiator hoses. Zirgo's™ UltraHose™ Stainless Steel Hose Kit is available in 4 lengths; 12", 24", 36", and 48" for 1-1/4", 1-1/2", and 1-3/4" O.D. water necks. With this many sizes in one kit, the UltraHose™ is sure to fit almost any hot rod, street truck, muscle car, import or custom vehicle out there.

The UltraHose™ Stainless Steel Hose Kit contains one UltraHose™ Flexible Corrugated Hose, two polished billet aluminum smooth hose ends, four stainless steel hose clamps, and two 1-1/2" and 1-1/4" neoprene reducers, along with 2 each- 1-3/4" high strength sleeve adaptors.

Transmission & Fluid Coolers

Zirgo's™ transmission & fluid coolers prevent your engine oil and transmission fluids from reaching their limits. At high temperatures, these fluids can create a varnish on critical engine and transmission components, harden seals, cause transmission plates to slip, and cause transmission clutches to burn out. Extend the mileage of your fluids by keeping them cool, and extend the life of your car or truck.

Bulkhead Solutions

Modular Bulkhead Connector System

Zirgo's™ modular bulkheads system provides a customizable solution for feeding AC and heating hoses through your vehicle's firewall. All bulkhead plates are compatible with Keep it Clean's Billet Wire Management system. This results in one central location for all hoses and wires in your firewall. To make your own custom bulkhead system simple follow the 2 steps below:

Step 1: Choose a firewall plate:

ZIRAP1 - #13930

ZIRAP2 - #13931

ZIRAP3 - #13932

ZIRAP4 - #13933

Step 2: Choose the connectors you need:

Overflow Tanks

BILLET OVERFLOW TANKS

Don't spill! Zirgo™ overflow tanks are available not only in a variety of sizes, but in a leak-free modular configuration as well. You're guaranteed to find the perfect tank to fit your needs. Our overflow tanks are engineered with precision and manufactured to completely eliminate fluid leaks, ensuring that you never lose performance or satisfaction! Their durable highly polished finish dresses up any engine bay.

Overflow Tank Bracket

Adjustable Overflow Tank bracket provides a secure, corrosion-resistant solution for mounting your modular or standard Overflow Tank.

Overflow Tank Bracket- ZIROFTB- # 129450

Standard Overflow Tanks

Zirgo's™ Standard Overflow Tank is a functional treat for the eyes. Mounts anywhere in your engine bay using beautifully crafted billet tank mounts. No need to drill holes or perform unnecessary fabrication to mount this tank- just adjust the spacing of the brackets! Available in three popular sizes. Knurled cap opens easily, yet seals tight.

Modular Overflow Tank

A new frontier in adjustability! Zirgo's™ Modular Overflow Tanks allow you to customize the size of your overflow tanks by featuring exclusive expansion chambers. Simply add or remove tank segments with a simple twist to achieve your desired tank size, giving you total control of the size of your overflow tank. Zirgo's™ interlocking chamber technology gives you an air-tight seal that guarantees no fluid leaks in your tank, regardless of how many expansion chambers are being used.

Total Cooling Solutions

THE COOLING AUTHORITY

Zirgo's™ wide variety of products designed to optimize cooling system performance provide a complete vehicular cooling solution. With all the products available for your cooling system from Zirgo™, you can have the ultimate feeling about your ride - trust.

High performance fans in a variety of sizes, straight or S-blade, push or pull. Up to 3630 cubic feet per minute!

Complete bulkhead solutions in several styles and sizes. Polished plates and fittings, and stainless hoses.

Beautiful, leak proof and corrosion-free radiator hoses, heater hoses and polished overflow tanks in standard or modular design.

Several types of temperature switches, from standard to fully adjustable digital units.

NEW UltraCool Advanced Cooling System Additive for lowering engine temperatures up to thirty degrees.
